CHATEAU

Installing a Chateau Clean Face Direct-Vent Fireplace in your home makes a bold statement.

Sized to complement the scale of today's open floor plans and great rooms and equipped with advanced dual burners and accent lighting, your Chateau Fireplace will set the desired mood in your living space.

Whether you opt for a 36-inch model with 1,150 square inches of viewing glass or the 42-inch with its panoramic 1,600 square inches – your new fireplace will provide the appearance of a massive site-built installation with the convenience of a modern direct-vent system. This large Ceramic Glass window maximizes heat transfer, and thanks to a proprietary manufacturing process, minimizes reflections to help create the appearance of an open hearth.

CHATEAU

DIRECT-VENT LUXURY FIREPLACES

Technology Meets Magic.

With its concealed controls, variable lighting, and complete lack of exposed sheet metal, the distinctive Chateau fireplace will leave your friends guessing just how it works. Only you will know the secret behind the removable panel and slide out control module, which provides easy front access to the valve and remote control connections for installation and service.

Every Chateau fireplace includes a programmable remote control to independently operate the dual

burners and the built-in dimmer lighting. This simple, intuitive thermostat remote features day-of-week programming so you can set it to cycle off at bed time and cycle on in the morning, so you wake to warm fire.

The Chateau's Green Earth Preferred RF Control system eliminates the standing pilot – saving energy and your money. When you want fire, just press the button – or

let the programmable thermostat maintain your desired room temperature. Thanks to its advanced logic, the thermostat remote control anticipates heat demand to minimize temperature fluctuations in the room.

In the event of a power outage, the built-in battery-backup system allows your Chateau fireplace to continue to operate – providing live-saving warmth for your home until power is restored.

What's Your Style?

CHATEAU TRADITIONAL

- Independently operated dual burners generate natural looking flames at any setting.
- 40,000 Btu with a turndown to 23,000 Btu for the 36-inch
- 50,000 Btu with a turndown to 25,000 Btu for the 42-inch
- Hand-painted ceramic fiber log set and ember bed shaped to complement the burner.
- 7-piece log set for the 36-inch
- 9-piece log set for the 42-inch
- Hand-painted Banded Brick Liner combines conventional brick courses with a band of diagonal bricks. The liner continues "through" the glass and conceals access panels at the front of the fireplace.
- Color-balanced overhead Halogen lighting casts dramatic shadows on the brick liner and log set. Buttons on the remote control let you adjust the dimmer lighting from off to full on – or any level in between.

Contemporary or Traditional? Chateau Fireplaces are offered in Traditional (with log set, brick liner, and overhead Halogen lighting) and in Contemporary (with rear main burners and front accent burner for decorative glass, porcelain liner, and Halogen lighting mounted beneath the accent burner).

Both systems are available in LP and Natural Gas.

Beautiful, elegant, and practical . . . your Chateau fireplace will add value, ambiance, and warmth to your home.

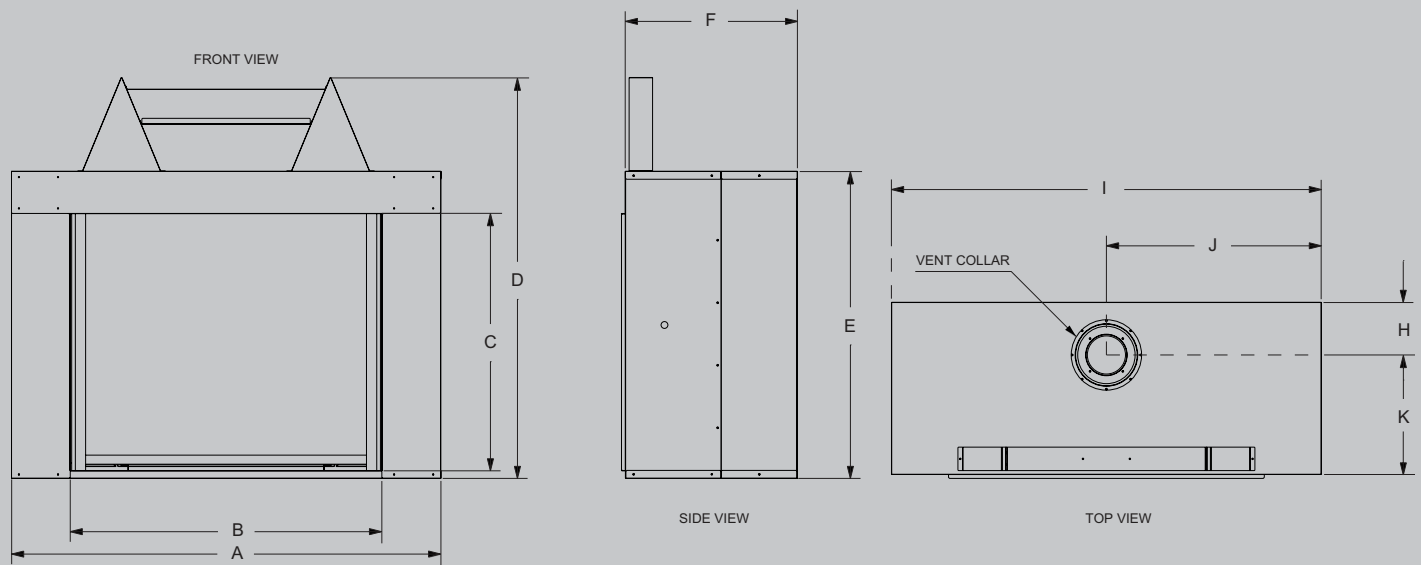

CHATEAU CONTEMPORARY

- Independently operated dual burners.
- 40,000 Btu with a turndown to 23,000 Btu for the 36-inch
- 50,000 Btu with a turndown to 25,000 Btu for the 42-inch
- Front Accent burner operates as on/off. Decorative glass and dimmer-controlled Halogen lighting beneath the Accent Burner let you create the look to suit your décor and mood. Decorative glass beads are available in Sangria Luster, Glacier Ice, and Aqua Blue

- Lustrous Black Porcelain Liner reflects the flames and the accent lighting. The liner continues "through" the glass and conceals access panels at the front of the fireplace.
- Buttons on the remote control let you adjust the dimmer lighting from off to full on – or any level in between.
