Masonry Design*

Elevating Masonry Fireplaces to a New Level

FIREPLACES
FOR BUILDERS
Fmi

Awesome Presence, Outstanding Performance

Plantation

The Plantation is the flagship of the Grand Masters Series. This just may be the perfect manufactured fireplace at 48" wide, 42" tall and a slanted back. Even more impressive is that the hearth floor lies only 1½" above the ground, just like the highest quality traditional masonry hearths. With real firebrick to boost, it's no wonder why this was a *Vesta Award* winner. Now we've made installing the firebrick even simpler with our new Mosaic Masonry™ technology... authentic masonry homeowners will love!

Homeowner Highlights:

- **Dominating Presence** — The Plantation is a dominant feature in any home. It's nearly 12" taller than the nearest contender, with a rich split herringbone brick pattern.
- **Masonry Firebrick Liner** — The Mosaic Masonry™ firebrick lining system positions Fmi's Grand Masters Series as the industry's only real masonry, factory built and UL 127 lab certified fireplaces! The beautiful kiln-fired clay firebrick walls are indistinguishable from site-built masonry. Available in Ivory and traditional Warm Red.
- **Efficiency and Performance**—The Plantation also features a real masonry style damper door and smoke closet, and vents with 12" double wall chimney. It's among the most reliable, highest performing fireplaces available.

Builder Benefits:

- **Masonry Firebrick Walls**— The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry. They're even hand grouted in the factory to minimize site installation time.
- **Reliability and Versatility**—On top of the authentic, masonry appearance, the Plantation is a UL 127 tested and certified zero clearance* fireplace. This means flexible and reliable installation options and guaranteed performance.
- **Unparalleled Value**—Hand crafted masonry finished fireplace at a fraction of the cost and installation time of site-built; with factory controlled quality, and performance.

The Plantation features a rich "split" herringbone brick pattern. The dramatic 48" x 42" opening is easily the largest in the industry. It's also the only wood burning fireplace featuring a flush hearth floor design.

48" WOOD BURNING FIREPLACE

Plantation Fireplace Product Offering Summary

- 48" Opening Width with 42" Clear Opening Height
- Warm Red or Ivory Herringbone Brick Options
- Fully Insulated
