FIREPLACES
FOR BUILDERS
Fmi

36" AND 42" INDOOR /OUTDOOR
WOODBURNING FIREPLACES
S36 & S42 Model Series

Stunning Looks, Outstanding Performance

America is moving outdoors. And Fmi's Tuscan outdoor woodburning fireplace is the perfect complement to any modern outdoor room. They play a key role in FMI's exciting Renaissance Series, which offers consistent looks, sizing and construction across the entire product line...plus beautiful features homeowners will love!

Homeowner Highlights:

- Eye-dazzling beauty**— Tuscan outdoor fireplaces feature clean, single piece brushed stainless steel faces, stainless mesh spark screens and even a solid stainless steel log grate. The screens tuck out of sight behind hidden side pockets to maximize the beauty of the fireplace. Fmi also offers the industry's finest, most realistic textured refractory brick liner in either natural white or warm red.
- Efficiency and versatility**— Tuscan's vent using our 8" double wall snap-lock pipe for flexible, space saving installation. And they're approved for indoor as well as outdoor installations.
- "Gas log ready" feature**— allows homeowners to add Fmi gas log sets with all gas connections and controls protected and hidden out of sight. You see only the beautiful flame, premium gas logs and ember bed even if you include our remote control option. It's the ultimate in convenience and realism.

Builder Benefits:

- Secure, straight installation**— We've included full-length, solid stainless steel nailing flanges and drywall stops built into all three sides of the face frame.
- Uncompromising quality**— FMI uses only the finest appliance grade stainless steel and solid 5/8" stainless bar stock for our hand crafted and detailed log grates. Quality checks at each level of production assure a quality product every time.

S36 Includes "stacked" style, natural white brick.

S42R is our larger 42" model featuring textured brick refractory in warm red.
