

Boulevard

Boulevard
DIRECT-VENT LINEAR FIREPLACES

With its strong horizontal lines contemporary burner, a Boulevard Linear Direct-Vent Fireplace adds drama to your décor.

The Boulevard Linear Direct-Vent Fireplaces

The 32,000-Btu, heater rated Boulevard Fireplace features a large ceramic glass window (more than 700 sq. in.) that provides excellent heat transfer and contributes to its exceptional efficiency.

Modern Technology, Artfully Applied

Every Boulevard fireplace includes an intuitive multifunction remote control with day-of-week thermostat programming so you can set it to cycle off at bedtime and cycle on in the morning, so you wake to a warm fire.

The Boulevard's Green Earth Preferred Intermittent Pilot system eliminates the standing pilot – saving energy and your money.

When you want fire, press the button – or just let the programmable thermostat maintain your desired room temperature. Thanks to its advanced logic, the thermostat remote control anticipates heat demand to minimize temperature fluctuations in the room.

In the event of a power outage, your Boulevard fireplace can operate

with a standing pilot – to provide life-saving warmth for your home until power is restored.

Complete your fireplace installation with the required decorative front – available in 2-inch and 4-inch. At just ¼-inch thick, the smooth one-piece matte black front creates an unobtrusive transition to the surrounding wall, resulting in a clean-face look that accentuates the Boulevard's modern design.

Contemporary or Traditional?

Boulevard Fireplaces are offered in ultra Contemporary and Traditional with a modern twist.

The Contemporary features a linear burner, halogen lighting mounted beneath the burner, and a black porcelain liner. The rich liner reflects the flames and the lighting. Decorative ceramic glass panels, available as an accessory, add visual interest to the fireplace interior and complement the flames. Use the remote control to raise or lower the lighting levels and the panels glow red along their edges.

The Boulevard Traditional includes an eight-piece hand-painted log set lifted straight from a remote beach – each well-worn log detailed the deep grain and whorls. Matte black walls accentuate the simplicity and clean lines. The black porcelain liner is available as an accessory.

Both systems are available in LP and Natural Gas.

Beautiful, elegant, and efficient . . . your Boulevard fireplace will add value, ambiance, and warmth to your home.

BOULEVARD TRADITIONAL SERIES

DVTL-41-FP90

Traditional Linear Direct-Vent Fireplace, 8-pc Log Set, Intermittent Pilot, Ceramic Glass, 32,000 Btu
