Stunning Looks, Outstanding Performance

America is moving outdoors and Fmi's Tuscan outdoor woodburning fireplace is the perfect complement to any modern outdoor room. They play a key role in FMI's exciting Renaissance Series, which offers consistent looks, sizing and construction across the entire product line... plus beautiful features homeowners will love!

Tuscan outdoor fireplaces feature clean, single piece brushed stainless steel faces, stainless mesh spark screens and even a solid stainless steel log grate. The screen stuck out of sight behind hidden side pockets to maximize the beauty of the fireplace. Fmi also offers the industry's finest, most realistic textured refractory brick liner in either natural white or warm red.

Tuscans vent using our 8" double wall snap-lock pipe for flexible, space saving installation. And they're approved for indoor as well as outdoor installations. Tuscans gas log ready feature allows homeowners to add Fmi gas log sets with all gas connections and controls protected and hidden out of sight. You see only the beautiful flame, premium gas logs and ember bed even if you include our remote control option. It's the ultimate in convenience and realism.

Tuscan models install straight and secure every time thanks to full-length nailing flanges, and drywall stops. They also feature our hidden side screen pockets and the industry's finest textured refractory brick liner.

S36 fireplace with stacked brick in natural white.
