FILTERS

HIGH EFFICIENCY MERV 11 FILTER AT 492 FT/MIN.

- Comes with custom 5¼ inch deep media filter
- Heavy gauge galvanized steel cabinet and powder coat, snap-on door
- Designed to convert to Electronic Air Cleaners
- High efficiency

HMF100 FURNACE - WOOD, ELECTRIC

- Firebox certified to EPA Standards at 3.6 grams per hour, with a firebox volume 1.9 ft³
- Self contained unit – blower, electrical controls and optional 10 kw electrical backup heater mount internally
- Blower capacity range 500-700 CFM @ 0.2" W.C.
- Small Envelope: 29"wide X 29"deep X 45" high
- Adjustable return air configuration (rear or side mount)
- Flue through top of furnace reduces clearance to combustibles at back of unit
- Thermostatically controlled combustion air damper (concealed mechanism) with manual choke in series
- Optional Napoleon® diffusion plenum (model HMFK-DP)

**MADE IN CANADA****HMF150 FURNACE - WOOD, OIL, ELECTRIC**

- Certified to CSA B415.1-10 with average emissions of 0.18 g/MJ (3.4 grams per hour)
- Firebox capable of handling 24" long wood
- 3 Cubic foot firebox capacity can accept an 74 pound fuel charge
- Average output of 85,000 BTU/hr (wood)
- Optional oil furnace module (70,000 - 93,000 BTU/hr input)
- Optional electrical furnace module 20 kW
- Switches automatically from primary wood burn to secondary fuel source
- Available with glass or solid firebox door
- Uses outdoor air for combustion
- Bypass damper heats exhaust venting for a quicker/cleaner startup
- Cleaner combustion promoted by 4 separate stainless steel secondary air tubes
- Modular design allows for easier/more flexible installations
- Side mounted blower means shorter depth of furnace and less room intrusion
- Available as "add on" to existing furnace, wood only furnace, wood oil furnace, wood electric furnace or combined wood/oil/electric furnace

**MADE IN CANADA****HMF200 FURNACE - WOOD, OIL, ELECTRIC**

- Enlarged firebox capable of handling 30" long wood
- 5 cubic foot firebox capacity can accept an 115 pound fuel charge
- Average output of 110,000 BTU/hr
- Optional oil furnace module (70,000 - 93,000 BTU/hr input)
- Optional electrical furnace modules ranging from 15 kW to 30 kW
- Switches automatically from primary wood burn to secondary fuel source
- Available with glass or solid firebox door
- Uses outdoor air for combustion
- Bypass damper heats exhaust venting for a quicker/cleaner startup
- Cleaner combustion promoted by 5 separate stainless steel secondary air tubes
- Modular design allows for easier/more flexible installations
- Side mounted blower means shorter depth of furnace and less room intrusion
- Available as "add on" to existing furnace, wood only furnace, wood oil furnace, wood electric furnace or combined wood/oil/electric furnace
