Electric Fireplace Inserts

Upgrade your existing fireplace

Portland Willamette electric fireplace inserts bring any room to life. Our revolutionary Renewal Trim ensures a perfect fit every time. A beautiful, natural-looking flame, remote controls, and quick, simple installation makes it an easy choice.

**About
Portland
Willamette**

Portland Willamette began as a post-World War II basement operation more than 65 years ago. Today, we are the nation's foremost manufacturer of premium-quality fireplace units and accessories for the hearth. Due to our reputation for quality construction, unparalleled finishing capabilities, and leading designs, many hearth-industry manufacturers rely on Portland Willamette to produce their fireplace fronts, faces, and doors. Headquartered in Portland, Oregon, with a distribution facility in Indiana, Portland Willamette is proud to be a USA manufacturer. We have now entered the electric fireplace business to provide you with Portland Willamette quality and sophisticated styling that you simply won't find anywhere else.

Electric Fireplace Inserts

Take an existing fireplace from ordinary to extraordinary

With Portland Willamette, you can install an electric insert in your existing fireplace and be sure it will look absolutely perfect. The key is our innovative Renewal Trims. Renewal Trims let you choose from two standard fireplace sizes, then select the exterior trim package that suits the dimensions of your existing fireplace. (Custom sizes are available, too.) The result is a beautiful fit every time. When quality, elegance, and a custom look are top priority, choose Portland Willamette for electric fireplace inserts that set a new standard for function and style.

Wall Mount Electric Fireplaces

Transform Any Room

Add eye-catching design and the charm of a realistic fire to any room—from bath to dining room. Portland Willamette wall mount electric fireplaces are easier to install than a wide-screen TV. They extend no more than 9 inches into the room, making them ideal for condominiums, lofts, apartments, or single-family homes. There's no combustion, so there are no greenhouse gases, they're energy-efficient, and safer than a space heater, too. With beautiful contemporary styling that compliments any décor, a Portland Willamette wall mount electric fireplace will become a striking focal point of any room.

Wall Mount Electric Fireplaces

Add a fireplace to any room—yes, any room

Make any room extraordinary with a Portland Willamette wall mount electric fireplace. Installation is the ultimate in simplicity, but the beauty and warmth you'll add to your home is nothing short of spectacular.

**What you can
expect from
Portland Willamette**

All Portland Willamette electric fireplaces offer high-quality construction and leading-edge designs. From classic to contemporary, with our unmatched range of available styles and colors, you're sure to find a trim and finish to suit your décor. All fireplaces offer adjustable flames and heat output. In fact, the ability to enjoy a fire year-round is unique to the electric fireplace. Turn the heater on when you want additional warmth, or leave it off and just enjoy the dancing flames when no heat is needed. Either way, the flames flicker and the fireplace crackles like the real thing. Access your fireplace's controls on the fireplace's control pad or use the handy remote control that comes with each unit. Installation is easy and maintenance is even easier. All Portland Willamette electric fireplaces are energy-efficient and have zero emissions.

Stand Alone & Built-in Fireplaces

Stand alone electric fireplaces offer "plug and play" convenience

Enjoy the flame and crackle of a fire without the mess. There's no cutting, hauling, or cleanup as with a wood fire. And there's no expensive gas fitting or construction work as there is with a gas fireplace. With a Portland Willamette stand alone electric fireplace, you just position it where you'd like it and plug it in to any standard outlet. Inset handles make it easy to move from room to room so you can have a fire anytime and anywhere. With a Portland Willamette electric fireplace, you can have a cozy, energy-efficient fire right now and for years to come.

Looking for a more permanent relationship?

A Portland Willamette built-in fireplace offers all the efficient, push-button convenience, and beautiful trim styles of a stand alone, but it becomes a permanent enhancement to your home. Whether you do the work yourself or hire a contractor, your built-in fireplace will provide you with years of reliable performance. The built-in comes standard with a 1 inch overlap trim to cover any seams.
