

why choose Hampton?

Over 30 years ago, I founded this company with a mission to produce the finest fireplace products available anywhere. The Hampton line is the result of millions of dollars in product development, years of research and listening to what consumers are looking for in a fireplace: timeless styling, exceptional quality and a way to cut home heating costs.

Hampton Quality

The rich, porcelain, enamel finish of each Hampton cast iron product is a work of art. Select the tasteful glass grill, one of four fashionable colors, side shelves, double screen doors and create your own Hampton.

Goverment Tax Credit Approved

All Hampton Products are eligible for Government Tax Credits. Check our web site for details.

Cut Fuel Bills in Half

Turn your furnace down and enjoy comforting Hampton heat in the living areas you spend time in. Have peace of mind, even during power outages. All Hampton products continue to operate without electricity.

One Hampton = One Tree

At Hampton Fireplaces, we are committed to protecting our environment. For every Hampton sold, we will plant a tree. Working with *American Forests*, the trees planted across North America will offset carbon emissions and take one more step to restore nature's balance.

Lifetime Warranty

I am so confident in the quality work-manship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. I know that you will be as proud of your Hampton as I am – I guarantee it.

Hampton® HI200 & HI300 Wood Inserts

Hampton HI300 Wood Insert in enamel timberline brown finish.

High Efficiency Heat

The Hampton cast wood inserts install easily into your existing fireplace adding the timeless beauty of cast iron while eliminating drafts from an open fireplace. These fireplace inserts can deliver up to 75,000 BTU of high efficiency heat, circulating comforting warmth to the living areas you spend time in. Decrease your heating bills and increase the value of your home with one of two inserts sized to fit your fireplace and your lifestyle.

Hampton® H15, H27, H35 Gas Stoves

Hampton H35 large gas stove in midnight blue finish with double screen doors.

Outstanding Fire

Hampton's beautiful styling is matched by its unsurpassed fire and log package. Convenient gas flames have been carefully engineered to twist and flicker in yellows and reds around the most realistic logs available anywhere today. In addition – this fire is designed to deliver controllable high efficiency heat with the added option of a wall thermostat or FireGenie Remote Control. Available in 3 sizes, these gas stoves will heat your home while saving money on your heating bill.

Hampton® Wood Products

Non-catalytic Technology

Hampton stoves use non-catalytic technology. This means that the airflow in the firebox is directed to reburn smoke, creating greater efficiency, a spectacular fire and cleaner emissions.

burning wood - a green choice

Renewable Resource

Wood is a renewable natural resource - well-managed forests are a renewable, sustainable source of energy that helps us reduce greenhouse gas emissions and be less dependent on oil & gas.

Wood is Carbon Neutral

As trees grow they absorb carbon dioxide from the atmosphere. When trees die and are left to decompose in the forest or burn in forest fires the carbon stored in the trees is released in the atmosphere as carbon dioxide.

Burning firewood produces the same amount of carbon dioxide as the tree has absorbed during its life cycle - making wood burning carbon neutral.

All Hampton Wood Stoves and Fireplace Inserts have been tested and certified to the strictest clean air standards as set by the Environmental Protection Agency.

One Hampton = One Tree

At Hampton Fireplaces, we are committed to protecting our environment. For every Hampton sold, we will plant a tree. Working with American Forests, the trees planted across North America will offset carbon emissions and take one more step to restore nature's balance.
